

Family Learning Discussion Cards

Cut out the cards or choose one prompt from the page after a lesson. These prompts support recall and conversation; they do not replace personal guidance.

Recall What is one idea you can explain without looking back?	Clarify What still feels unclear or deserves a careful question?
Connect What does this remind you of from an earlier lesson?	Explain How would you explain today's idea in simple words?
Notice Which part was easiest to remember, and what helped?	Review Which question or idea should we revisit next time?
Ask Is there a question we should take to a trusted teacher?	Continue What is one small learning step we can take next?

Keep the conversation calm and age-appropriate. It is fine to record a question instead of guessing.
